From CAFOD: The paradox of abundance

Over 800 million people go hungry each day. Yet the world produces over 4 billion tonnes of food and we only need 3.7 billion tonnes to feed everyone. From all this food produced, a third is wasted. St John Paul II called this ‘the paradox of abundance.’ Clearly the current global food system is not working. But as Pope Francis said, "Each of us has a role to play in transforming food systems for the benefit of people and the planet." Let’s respond to his call! CAFOD’s new campaign is called Fix the Food System. See [www.cafod.org.uk/food](http://www.cafod.org.uk/food) for more information, including an invitation for parish groups to learn about the impact of our food with our Fix the Food System: a 7-station journey resource.
